

PRODUCT DATA SHEET

MARINE 4-STROKE SEMI-SYNTHETIC ENGINE OIL

Marine 4-Stroke Semi-Synthetic Engine Oil is a premium semi-synthetic marine engine oil specifically engineered for the harsh operating conditions of the marine environment.

Marine 4-Stroke Semi-Synthetic Engine Oil utilizes the highest quality synthetic and mineral base fluids with the latest technology of marine 4-stroke additives to provide superior protection against wear, rust and corrosion and mineral deposits. **Marine 4-Stroke Semi-Synthetic Engine Oil** is NMMA FC-W[®] and NMMA FC-W Catalyst Compatible[®] certified.

Applications

- ◆ For use in all 4 Stroke gasoline powered outboard, inboard, stern-drive (I/O) and personal watercraft motors for fresh and salt water
- ◆ For use where NMMA FC-W[®] and NMMA FC-W Catalyst Compatible[®] oils are specified
- ◆ Outboard motors including Honda, Mercury, Yamaha, Evinrude/Johnson (BRP), Suzuki, Nissan, Tohatsu
- ◆ Inboard and stern-drive (I/O) motors including Mercruiser, Volvo Penta, OMC, Chrysler Marine, Crusader, Marine Power, Chevrolet and Ford
- ◆ Personal watercraft including Honda, Yamaha, Sea-Doo (BRP) and Polaris

Features and Benefits

- ◆ Extreme Pressure and anti-wear Reduced cylinder and ring and bearing wear. Extended engine life and efficiency.
- ◆ Marine quality rust protection Prevents rust in the harsh marine environment for maximum engine protection.
- ◆ Superior deposit control Cleans existing deposits. Controls sludge and varnish formation. Keeps ring lands and grooves free of carbon.

General Description

Marine 4-Stroke Semi-Synthetic Engine Oil is formulated with the highest quality synthetic and mineral base fluids and additives to provide superior engine protection in harsh marine conditions.
