

PRODUCT DATA SHEET

SILICONE DETAILER & PROTECTANT SPRAY

Silicone Detailer & Protectant Spray is a premium product specially formulated to provide a spectacular finish to all plastic and metal surfaces. This product is designed to resist the attraction of dust and dirt on the surface of parts treated with **Silicone Detailer & Protectant Spray**. It is formulated with inert chemicals that will not react with paint, metals or plastics but still binds well to surfaces. **Silicone Detailer & Protectant Spray** will tenaciously hold onto surfaces without running off. The coating is easily removed after use and will not persist on surfaces after being properly washed off. **Silicone Detailer & Protectant Spray** is formulated with environmentally inert compounds that will not cause negative effects in the environment.

Applications

Silicone Detailer & Protectant Spray is suitable for use on all types of surfaces

- | | |
|---------------|----------|
| ◆ Plastic | ◆ Metal |
| ◆ Fiber Glass | ◆ Chrome |
| ◆ Rubber | ◆ Glass |

Features and Benefits

-
- | | |
|-------------------------------|---|
| ◆ Inert chemistry | Will not react with surfaces. |
| ◆ Exceptional dirt resistance | Resists dust and dirt collecting on surfaces. |
| ◆ Brilliant shine | Enhances colors and hides flaws in surfaces. |
| ◆ Environmentally friendly | Does not cause toxicity in the environment and naturally breaks down to simple compounds in soil. |
| ◆ Winterizing coating | Applying to rubber surfaces provides excellent protection for the winter. |

General Description

Silicone Detailer & Protectant Spray is a high performance detailing compound that provides an excellent shine to applied parts. **Silicone Detailer & Protectant Spray** does not attract dirt and dust to treated surfaces and retains a spectacular finish even in off-road environments. Environmentally friendly chemistry allows simple removal from surfaces. **Silicone Detailer & Protectant Spray** is recommended for all types of metal and plastic surfaces and will not harm paint, chrome or rubber surfaces.

Product No. 99455

SILICONE DETAILER & PROTECTANT SPRAY

Product No.

99455

Application Instructions

Before applying **Silicone Detailer & Protectant Spray**, make sure the surface is completely dry and free of all dirt, dust, grease and oil for better adhesion and maximum shine. Spray the **Silicone Detailer & Protectant Spray** on the surface and make sure to use enough product to spread over the entire surface where treatment is desired. Immediately spread the product by rubbing gently with a clean cloth until an even coating covers the surface being treated. Allow the coating to dry for 1 minute after applying. If reapplying **Silicone Detailer & Protectant Spray** after cleaning, be sure that the surface is completely dry before applying new product.

Cleaning Instructions

Over time, light dust may be visible on surfaces treated with **Silicone Detailer & Protectant Spray**. Simply wipe the surface with a clean cloth to remove this dust for a fresh and lustrous look. To clean **Silicone Detailer & Protectant Spray** off of a treated surface, wash the surface with water and soap suitable for washing the vehicle and then rinse the surface with water.

Caution: *Use in a well-ventilated space. Product is flammable and should be used with appropriate caution.*

Do not spray on a hot surface or in proximity to flames or open fire.

Do not puncture or incinerate container, even when empty.

Always wear safety glasses when using this product.

Keep container away from heat.
