Ref. D0B38106 (Carbon)

+40%  
EXPANDED

10  
kg

MODULAR

PATENT PENDING

## FEATURES

**Expandable** Dynamic tensegrity: A telescopically expandable case with a compensated tension cable system.

Lateral expansion: + 70mm (+40%)

**Capacity** 1 modular helmet.

**Most compact case** The most compact case in the market for a modular helmet.

**Installation** SHAD 3P or 4P system.

Fully integrated mechanism design: into the case and fitting.

**Double locking system** One key to open, close and release.

Premium lock cylinder and key.

**Functionality** Tension cable system; allows a smooth and uniform expansion or contraction thanks to the 4 guides incorporated inside of the case's frame.

Open, close and adjust the size of the case in a matter of seconds.

The reduced dimensions of the case allows for a safer and more comfortable ride.

2 Inner net included.

Retractable and integrated carrying handle.

Inner tray.

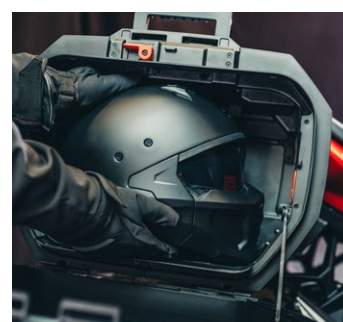

10kg capacity per case.

A third lock is included for 1-key use with a Top case.

Different colour cover options.

**Measurements** X50 Y27/34 Z39 (cm)

**Others** Designed, engineered and made in Barcelona.
